

Whitireia Library Serials Collection

A – Z list of journals & magazines on shelf

Date: July 2010

Understanding the serials holdings list: Below are some hints and examples for understanding the serials holdings

Title: title of the journal – found in alphabetical order of title in the following list
e.g. AJN : American Journal of Nursing

Dewey: all serials in this library are shelved in Dewey (a subject number) order – It is the same number as the books on the same subject. e.g. 610.73097 AME

Holdings: this tells you

1. the branch where this serial is e.g. Porirua
2. the volume and year that the library started getting this serial e.g. Vol 86 (1986)
3. if the library is still getting this serial e.g. Vol 86 (1986) – current issue
4. if the library has electronic access to abstracts or full text of the articles in a journal e.g. Website : <http://www.artistalliance.org.nz/> or Fulltext : <http://ejournals.ebsco.com/direct.asp?JournalID=101823>
[Note: Off campus you will need to log on to ATHENS to access journals that are found on Gale, Proquest, EBSCO, ScienceDirect and other databases that the library subscribes to for use by staff and students.]
5. if the library only holds the journal for a few years e.g. “3 years only” means that the library only holds the last 3 years.
6. whether some of the older issues of a serial are now held in “back issue storage” e.g. *STACK 1994- 1996*

Title (and electronic access)	Holdings	Shelf Number
